

Who We Are

Patricia Davis received her Bachelor of Science Degree in Physical Therapy from Northeastern University in 1989.

She has been working in a variety of settings since then and has been providing school based PT services for the Ashland Public Schools since 2010.

Patricia is working on her Doctorate in Physical Therapy at the Mass General Hospital Institute of Health Professions and is scheduled to complete this in December of 2014.

Physical Therapy Services

Ashland Public Schools Student Services

Who is Eligible?

Students that have been identified between the ages of 3 to 22 years of age and have a physical disability that impacts their ability to access the school based curriculum are eligible for service in the least restrictive environment.

Areas in which a student's performance is considered include classroom, gymnasium, stairs, playground and cafeteria.

Physical Therapist(s) in the school setting may do any of the following:

- Gross Motor Assessments
- Direct service delivery
- Recommendations for accommodations/modifications
- Consultation to teachers/parents
- Provide recommendations for adaptive equipment

What is "School Based Physical Therapy?"

Physical Therapy in the school setting is a related service that assists a child with a physical disability that affects their motor function and their ability to access and successfully participate in the curriculum and negotiate his/her school environment. Physical Therapy focuses on the development of gross motor function.
